

Amendment to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1-6. (Canceled)

7. (Currently Amended) An operation apparatus which is used for operating a zoom lens, with a device for image-taking; comprising:

a zooming switch which is operated to perform a zooming operation of the zoom lens;

an operation switch which is operated to set a relationship between a pressed amount of the zooming switch and a zoom speed of the zoom lens; and

a display member which displays [[an]] information on the relationship concerning a function of the device; and

a first operation switch for setting the function according to a text information displayed on the display member;

wherein the device is a lens apparatus which has an optical adjusting member, and the operation apparatus is a drive unit which has a second operation switch for driving the optical adjusting member;

wherein, by operating the first operation switch, a parameter which decides the relationship between the driving speed of the optical adjusting member and the operation amount of the second operation switch can be set.

8-12. (Canceled)

13. (Currently Amended) An operation apparatus which is used for operating an image-taking device, with a device for image-taking; comprising:

a function switch;

an operation switch which is operated to allocate one of a plurality of functions to the function switch; and

a display member which displays ~~[[an]]~~ information on the function allocated to the function switch, ~~concerning a function of the device; and~~

~~a first operation switch for setting the function according to a text information displayed on the display member,~~

~~wherein the operation apparatus has a function in which at least one of a plurality of functions having the device is allocated to a third operation switch provided on the operation apparatus by operating the first operation switch.~~

14-15. (Canceled)

16. (Currently Amended) An image-taking device ~~A device for image-taking,~~
comprising~~[[:]]~~:

the operation apparatus according to claim 7; and

the zoom lens.

~~an optical adjusting member.~~

17. (Canceled)

18. (Currently Amended) An image-taking system ~~A device for image-taking,~~
comprising~~[[:]]~~:

the operation apparatus according to claim 13; and

the image-taking device.

~~an optical adjusting member.~~

19. (New) The image-taking system according to claim 18, wherein the image-taking device is a lens apparatus.

20. (New) The operation apparatus according to claim 13, further comprising a second function switch,

wherein the operation switch can allocate the function to the second function switch, and

wherein the display member simultaneously displays the functions allocated to the two function switches.

21. (New) The operation apparatus according to claim 13, wherein the image-taking device is a lens apparatus.

22. (New) A camera comprising:
an image-pickup element;
the operation apparatus according to claim 7; and
a lens apparatus which includes the zoom lens.

23. (New) A camera comprising:
an image-pickup element;
the operation apparatus according to claim 13; and
a lens apparatus which is the image-taking device.
